

# Akinlonu Eniola O.

**Results-driven fullstack developer** with 5+ years of experience delivering scalable, high-performance web applications. Skilled in both **backend (PHP/Laravel, Node.js)** and **frontend (Angular)** development, with expertise designing RESTful APIs, optimizing databases, and creating responsive, user-friendly interfaces. Proficient across the full development lifecycle — from UI/UX implementation to backend architecture and DevOps. Known for writing clean, maintainable code and delivering reliable software solutions in fast-paced, agile environments.

## EXPERIENCE

### **Snaarp** — Senior PHP Web Developer

JAN 2025 - PRESENT

- Developed secure, high-performance backend APIs using Laravel and Node.js (Express) for web, mobile, and desktop platforms.
- Designed microservices and optimized databases with caching to enhance scalability and performance.
- Collaborated across teams, contributed to architecture decisions, and supported CI/CD for reliable backend delivery.

### **Subba** — Backend Engineer (node.js + typescript)

NOV 2024 - FEB 2025

- Developed and maintained secure, scalable backend systems, including APIs, databases, and server-side logic.
- Optimized performance, ensured data integrity, and implemented best practices for code quality, testing, and deployment (CI/CD).
- Troubleshoot, monitored, and enhanced system reliability, while staying updated on backend technologies.
- Collaborated with team members to define requirements, review code, and deliver robust backend solutions.
- Created and maintained technical documentation for backend systems and deployment processes with swagger and postman.

### **Metropolitan School of Business & Management (MSBM UK)** — PHP Web Developer

MAY 2023 - JAN 2025

- Improved platform performance and UX for thousands of learners using **HTML/CSS and Bootstrap** to modernize legacy PHP pages.
- Refactored legacy code for maintainability and scalability, reducing load times by 75%.
- Collaborated with cross-functional teams to deploy high-quality solutions.

### **RemnantFund** — Lead Fullstack Developer

2020

- Led development of a custom Investment Dashboard, automating investments, withdrawals, and lock features.
- **Built responsive user interfaces using AngularJS and Bootstrap**, ensuring seamless user interaction with backend APIs.
- Integrated Paystack for secure payments and enhanced platform reliability.
- Refactored codebase for improved performance, scalability, and long-term maintainability using PHP, AngularJS, and MySQL.

## TECHNOLOGIES & SKILLS

### Frontend Technologies

- Angular (RxJS, ngRx), angular.js
- HTML5/CSS3, Bootstrap, Javascript, jQuery
- Responsive Design & Mobile-First Development

### Backend Technologies

- PHP, Laravel, CodeIgniter
- Node.js (express)
- RESTful APIs & Microservices Architecture

### Database & Storage

- SQL/NoSQL (MySQL, MongoDB), firebase
- Caching (Redis, Memcached)

### DevOps & Tools

- Git (GitHub), Docker, Postman, AWS
- CI/CD pipelines

### Development Practices

- Test-Driven Development (TDD), DRY, KISS & SOLID Principles
- Agile/Scrum, Cross-Functional Teams

## EDUCATION

**Crawford University, Igbesa, Ogun state** — B.Sc. Computer Science.

2015 - 2020
